

Pressed Juicery — Static Clone Audit · BEFORE (raw Ditto output)

https://pressed.com vs http://localhost:3081 · 7 pages · desktop 1440px · auto-descend anchored per-section pixel diff

Each page below shows the full-page live vs clone side by side, the concrete discrepancies to fix, a per-section diff table, and livelcloneldiff crops of the worst sections. Diff % is a triage signal (photo antialiasing inflates it on image-heavy sections); the written discrepancies + crops are the actionable part.
